

Iowa's Area Educations Agencies have partnered with Atomic Learning to provide access to a time-saving resource to address technology training and provide support the moment it is needed. With on-demand access to Atomic Learning's Technology Skills Collection and Assistive Technology Collection, individuals get the instruction and support they need, when they need it.

Using an online show-and-tell approach, our short, easy-to-view-and-understand tutorials answers common "How do I do that?" questions individuals have when learning and using technology.

All Iowa's K-12 school staff, students, and parents now have access to training and support on over 130 applications—all at your fingertips 24 hours a day from school or home. Whether you already have a solid understanding of the technology available to you or are beginning to learn, Atomic Learning's tutorials make certain the answers to your "How do I do that?" questions are just a click away.

## Training Tutorials

Microsoft Office 2007 (PC)

Microsoft Office 2008 (Mac)
